Firefox Self-Service Banner Fix

1) Go to URL box and Type in About: config

2) You will be taken to a screen like the one below and click on the blue button that says, “I’ll be careful, I promise!”

3) In the search box, type: “security.tls”
4) Then double click the option on the first line that says: “security.tls.insecure_fallback_hosts”

5) There will be a pop-up box that comes up

6) Type in “dilbert.dtcc.edu” and click ok

7) Your new settings should look like the screen below on the first line. Then you can exit out of Firefox
<table>
<thead>
<tr>
<th>Preference Name</th>
<th>Status</th>
<th>Type</th>
<th>Value</th>
</tr>
</thead>
<tbody>
<tr>
<td>security.tls.insecure_fallback_hosts</td>
<td>user set</td>
<td>string</td>
<td>dilbert.dtcc.edu</td>
</tr>
</tbody>
</table>
